

SILICON VALLEY ROBOTICS

Silicon Valley Robotics is a non-profit 501(c)6 industry group supporting innovation and commercialization of robotic technologies. The Silicon Valley area is home to one of the largest robotics clusters in the world, with over 80 robotics companies and 10 world class research facilities.

Silicon Valley Robotics runs events, collects data, connects companies, shapes policy and provides information. Silicon Valley Robotics is a contact point for the robotics community via our calendar, directory and robojobs.org.

Join us for network events, investor and topic forums, and our popular Robot Block Party held during National Robotics Week.

Upcoming Events

- Dec 3 - Investor Forum at WilmerHale
